

Model Development Phase Template

Date	5 Feb 2026
Student Name	Rounak Pratap Gajbar
Project Title	greenclassify: deep learning-based approach for vegetable image

Initial Model Training Code, Model Validation and Evaluation Report

The initial model training code will be showcased in the future through a screenshot. The model validation and evaluation report will include a summary and training and validation performance metrics for multiple models, presented through respective screenshots.

Initial Model Training Code (5 marks):

```
import keras
early_stopping=keras.callbacks.EarlyStopping(patience=10)

hist=model.fit(train_ds,
               epochs=100,
               verbose=1,
               validation_data=validation_ds,
               callbacks=early_stopping
              )
```

Model Validation and Evaluation Report (5 marks):
